

Environment, Health and Safety Policy

CF Fertilisers UK Limited is committed to the manufacture and supply of fertilisers and related intermediate products, site utilities and fertiliser advice services while minimising health, safety, environmental and other risks by:

- Developing and promoting EHS excellence in all areas
- Establishing relevant objectives and targets
- Undertaking suitable and sufficient risk assessments and implementing appropriate control measures
- Complying with legal and other requirements
- Following CF Industries corporate policies, including the Environment, Health, Safety and Security Policy
- Engaging with relevant stakeholders and interested parties
- Undertaking audit and review of systems and performance
- Maintaining an integrated management system
- Continuously improving in all aspects of its operations

Prevent injury and ill health to employees, customers and the public by

- Eliminating hazards and reducing risks
- Meeting the requirements of ISO 45001
- Complying with health and safety legislation
- Implementing a Major Accident Prevention Policy
- Improving occupational health and safety management and practices
- Improving process safety management and practices
- Ensuring all employees understand their responsibility for health and safety
- Consultation and participation with all personnel

Enhance customer satisfaction

- Meeting the requirements of ISO Standard 9001
- Establishing appropriate product specifications and controls to achieve them
- Establishing and continually reviewing EHSQS objectives
- Ensuring continuity of supply
- Providing technical support for all our products and services
- Ensuring all employees understand their responsibilities in this area
- Ensuring periodic reviews of the management system with relevant management team

Be a responsible steward of the environment

- Meeting the requirements of ISO Standard 14001
- Complying with all relevant environmental legislation
- Improving environmental performance by reducing emissions and minimising waste
- Improving sustainability by the efficient use of raw materials and energy
- Involving all employees in this process

Achieve 'Responsible Care'

- Complying with the AIC Fertilisers Industry Assurance Scheme
- Complying with the CIA Responsible Care program
- Complying with other voluntary requirements including trade association codes of practice
- Managing the environmental, social and economic impacts of the business in a responsible manner

Secure operations, products and data

- Maintaining risk-based security plans for operations and transport
- Maintaining appropriate site security measures including perimeter security and access control
- Managing potentially sensitive supplier and customer interactions
